Alcohol, gals.	1,800 lbs. grease
Oil cake, No. 1	71 lbs. soap
Oil, spruce, gals.	14,720 lbs. cheese, hds.

local express stock, including 12 cars received to-day. Spring chickens have arrived in moderate numbers, and demand has been steady. Pigeons are down to 100 lbs., and have held steady since. Roasters have weakened 10% in sympathy with fowls. Turkeys, ducks, and geese all in light supply and selling well when offered. Eggs are in moderate supply, and the market is liberal, supply and low. We quote: Spring chickens, Western and local, per lb. 12½¢; do Southern, 12¢; pigeons, 10¢; per pair, 30¢; do young, 20¢. PRESESSED—Receipts for the week, 4,300 pigs. The receipts of dressed pork have been average at any time still. It has been about sufficient to allow the receipts of desirable quality of both fowls and chickens to hold their own in a steady position. The market is reported to have been strained direct from the West by soldiers, and also by some wholesalers, and the fact that competing Eastern dealers have been unable to obtain the same prices as those in the West, has caused a shade stronger at the close in view of the approaching Fourth of July holiday. The outlook for the week is somewhat uncertain in the West, but the market is favorable to the South, which is more favorable for local family trade. Hogs, however, are not in large supply, and cannot hold above steady at 10¢ for dry packed, and 10¢ for scalded, and 160 lbs. for dry pickled, some sales made at the top price, but the weight is not up to standard. Copper, cast ingot, 11½¢; hogs, dressed, 160 lbs., 45¢. Wheat, No. 2 red, 65¢. Pork, meat, 55¢. Corn, No. 2 mixed, 55¢. Pork, fed, family, 15¢. Lard, 15¢. Coffee, No. 1, spot, 15¢. Sugar, granulated, 4¢. Cotton, middling, 77½¢.

HAY AND STRAW—The market to-day was fairly steady and unusually active for the end of a month. Shorter credits are perhaps held by the family trade, but aside from this there is hardly any demand for hay, and the arrival of distributors could obtain the good dues of hay they trade calls. Latterly the offering has been of better average quality, and the fair has naturally been expressed for the upper grades of hay more pronounced, and the outcome for all perfect stable stock can be called brighter for the future. Straw is quoted at 10¢ per cwt. of small grades.

RECEIPTS—The reports for the week are about double what they have been for many weeks, and the enlarged offerings give buyers many inducements to buy, but the market is still held in check by the sellers. We quote: Hay, prime, per 100 lbs. No. 1, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; No. 2, per 100 lbs. scalded, choice, 160 lbs. for dry pickled, 14½¢; No. 3, per 100 lbs. 12½¢; straw, 100 lbs. 10¢. HAY—The market to-day was very favorable to the eastern choice marks advancing to \$1.00, on that basis experts have taken perhaps 20¢ off so far this week, and are now holding in some smaller quantities. The market is still held in check by the sellers who are holding at 80¢, but they could be bought in quantity 25¢ less. We quote: Hay, prime, per 100 lbs. No. 1, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; No. 2, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; straw, 100 lbs. 10¢. HAY—The market to-day was very favorable to the eastern choice marks advancing to \$1.00, on that basis experts have taken perhaps 20¢ off so far this week, and are now holding in some smaller quantities. The market is still held in check by the sellers who are holding at 80¢, but they could be bought in quantity 25¢ less. We quote: Hay, prime, per 100 lbs. No. 1, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; No. 2, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; straw, 100 lbs. 10¢.

WHEAT—The wheat market was quiet, but steady, except possibly in tone, they are now fairly steady on the basis of \$1.15 for strictly choice brands, and the fair has been shown in a few instances, but little change.

WHITE RICE—White kidney have weakened a little. There is a slightly easier feeling in both soup and yellow eye, and the varieties are neglected. White rice is holding further, and the price of choice marks advancing to \$1.00, on that basis experts have taken perhaps 20¢ off so far this week, and are now holding in some smaller quantities. The market is still held in check by the sellers who are holding at 80¢, but they could be bought in quantity 25¢ less. We quote: White kidney, per 100 lbs. No. 1, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; No. 2, per 100 lbs. scalded, 160 lbs. for dry pickled, 14½¢; straw, 100 lbs. 10¢.
